

About CMCgi

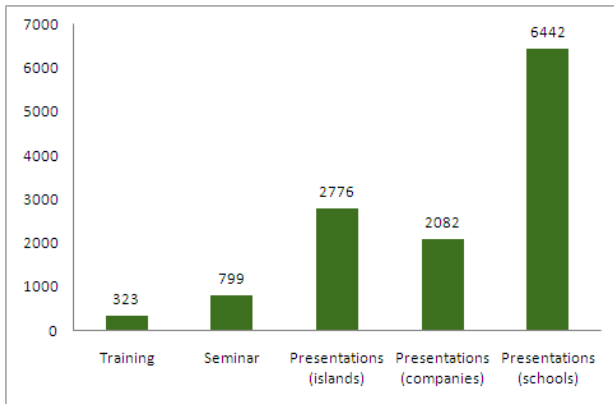

The Capital Market and Corporate Governance Institute (CMCGI) was established by the Capital Market Development Authority (CMDA) on 15th July 2006, with the objective of providing training and certification to ensure the good conduct and professionalism of market intermediaries, to raise market awareness and to promote good corporate governance in the Maldives.

The CMCgi implements educational initiatives on its own or will tap into resources and experience of credible international capital market institutes in the provision of its services. CMDA believes that CMCgi will be a gateway to raising standards of market professionals in the Maldivian financial sector.

Resource Persons

CMCGI training programs are conducted by highly trained professionals in their respective fields of employment. Our resource persons are obtained both locally and internationally. Each resource person has a technical understanding of the various immediate and expected needs for the developing capital markets in the Maldives. Resource persons are allocated according to the specific needs and technical requirements of a program to be conducted, and as such, some programs are hosted by more than one resource person.

CMCGI Program Participants

(The graph displays the total number of participants who took part in programs held by the CMCgi as of October 31st 2009)

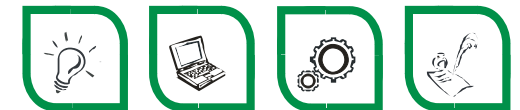

Please lodge a request at
CMDA for a presentation at
your school or institution

CAPITAL MARKET AND CORPORATE GOVERNANCE INSTITUTE (CMCGI)

“Protecting Investors through
Education & Market Awareness”

WHAT WE DO AT CMCGL

Maintain a database of company directors and secretaries who will provide ongoing support to the CMCGL.

Carry out research and studies in the area of securities market – Publish research reports and other educational materials.

Integrate into the international agenda on the capital markets and corporate governance.

Customized short courses and training programs – Run programs customized to meet the needs of CMDA in-house training as well as delivery of training to other institutions.

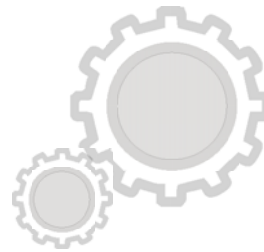

Conduct joint programs with regulators and other similar institutes – Liaise with reputable international capital markets institutes to run joint programs.

Director training programs – Conduct programs for the directors of the listed companies and other companies

Activities for young investors – The programs conducted for young investors include schools presentations, annual essay writing and quiz competitions.

For more details on our programs and to check out our latest training calendar, visit www.cmda.gov.mv or contact us by E-mail at cmcgi@cmda.gov.mv

Training programs on corporate governance – Conduct programs to facilitate the implementation of the CMDA Code of Corporate Governance.

Market intermediaries training programs – Develop programs to meet licensing requirements for market intermediaries such as brokers and investment advisors.

Organize seminars and conferences – Conduct programs for the officers of CMDA & other government agencies, senior functionaries working with intermediaries, securities market professionals and general public.

Company secretaries training programs – Conduct programs to train professionally qualified company secretaries.
