

## Report on Observance of Standards and Codes (ROSC)

Upon request of the CMDA, the World Bank Group has undertaken a ROSC (Reports on the Observance of Standard Codes) assessment in Maldives on Corporate Governance.

The goal of the ROSC initiative is to identify weakness that may contribute to a country's economic and financial vulnerability. Each Corporate Governance ROSC assessment reviews the legal and regulatory framework, as well as practices and compliance of listed firms, and assesses the framework relative to an internationally accepted benchmark. In this regard, the Maldives ROSC report would assess the Maldives's corporate governance policy framework. It would also highlight recent improvements in corporate governance regulation, makes policy recommendations, and provides investors with a benchmark against which to measure corporate governance in the Maldives.

# CORPORATE GOVERNANCE

“The way to a sustainable corporate future”

## Background

The Capital Market Development Authority (CMDA) was established for the purpose of developing and regulating a capital market in the Maldives. The Authority has taken the initiative to promote a culture of good Corporate Governance in Maldives with the aim to raise investor (both local and foreign) confidence, develop the capital markets and to achieve high sustained growth for the corporate sector and the economy as a whole.

## What is Corporate Governance

Corporate Governance ensures that companies are directed and managed at Board and management level in a fair and transparent manner. It provides guidance on how the objectives of the company are set and achieved, how risk is monitored and assessed, and how performance is optimized.

## Four Defining Principles of Corporate Governance

## Why is Corporate governance Important to the Maldives

Good Corporate Governance practices have an impact in determining the cost of capital in a global capital market. Companies in the Maldives must be equipped to compete globally and to maintain and promote investor confidence, both in the Maldives and internationally. This means that companies in the Maldives must put in place good Corporate Governance practices.
